Kyubi's Story

[Share Profile](#)

Kyubi came to us when her elderly owner could no longer care for her. She's a gentle soul who loves quiet afternoons by the window and gentle head scratches. Kyubi has lived with children and gets along well with calm, respectful kids. She's looking for a peaceful home where she can be the center of attention and receive all the love she deserves. Kyubi enjoys interactive toys and has a soft purr that will melt your heart.
